Rewire Neuro, Inc. Wins “Founder’s Live”
Biotech Start-Up Awarded \$27,000 Investment in Pitch Competition

Portland, OR: Rewire Neuro, Inc. took away the first place prize at the Founder’s Live pitch competition on ...

Dr. John Harkness, Rewire Neuro’s CEO and co-founder, presented the company and its AI image analysis platform, Pipsqueak Pro, to a panel of judges on Saturday, winning them over and taking home the angel investment prize.

Pipsqueak Pro uses advanced machine learning technology to rapidly speed up the scientific research process through automatic image analysis and cellular detection and quantification.

About Rewire Neuro, Inc.: Rewire Neuro, Inc. develops and sells AI software for image analysis and cell detection. Founded in 2019 by Dr. John Harkness, Rewire Neuro has taken home over \$150,000 in prize money from pitch competitions across the Pacific Northwest.

For more information on Rewire Neuro and Pipsqueak Pro, please visit our website, www.rewireneuro.com, or follow us on social media @rewireneuro.
